

WELCOME TO SWITZERLAND

Only in Switzerland can one find the combination of economic stability, high security, competitive economy, attractive taxrates, superior infrastructure and an exceptional quality of life. We enable the access to you , your family or your enterprise and stand by your side as a trusting and reliable partner.

Degreed Engineer Oliver Grünwald
Managing Director IM Consulting

GENERAL INFORMATION

Switzerland is one of the most attractive locations for enterprises and financial services in the world, therefore it can make strategic sense to start suitable activities in Switzerland, or shift existing activities to Switzerland. Both must be thought through carefully and planned well. Approach us early. We give you legal and financial advice and will find a suitable solution for you.

FOUNDATION PREPARATION

If you should decide to establish a joint stock corporation in Switzerland, comprehensive preparations must be made. Which legal form is the right one, how high should the share capital be, which name should the company have and is this name still available? Who takes over the management? And above all: In which Swiss canton should the company have its seat? No worry! IM Consulting will considerate everything with you and fulfill the requirements.

FOUNDING

It may be a business start-up or a relocation of a foreign company to Switzerland, in both cases the first step is to record the necessary company foundation information and prepare the articles of association. A notary will ratify the official founding of the Swiss Company. In addition, every corporation needs a trustee and a domestic bank account. Also very important is to determine the position of the general management and the board of directors.

AFTER THE FOUNDATION

After the foundation the operational work of the company begins. Holding companies or purely capital-administering companies are obliged to fulfill the high Swiss standards concerning documentation, taxes and right. IM Consulting offers the whole spectrum of a swiss management consultancy to gain a foothold at the market and act successfully. For capital-administering enterprises we consider ourselves as a trusting contact for all evolving questions.

IM Consulting GmbH is a consulting firm based at Lake Lucerne in Central Switzerland. We advise foreign nationals, families and companies with the foundation of corporations in Switzerland and execute the foundation. We accompany our customers during the time afterwards. The long-term personal care of our clients is very important to us, helping them with questions about Switzerland. This differentiates us from other suppliers. The high quality of our service, our good reputation and professional competence are most important to us.

Contact us for a confidential non-binding preliminary meeting.
We look forward to it.
